

Sutton school is near the city of Canberra but has lots of farms around as well as some Australian bush behind us. We are hot and dry in Summer and can even get snow

The school we compared our square to was Brunner and they live half in the city and half in the country.

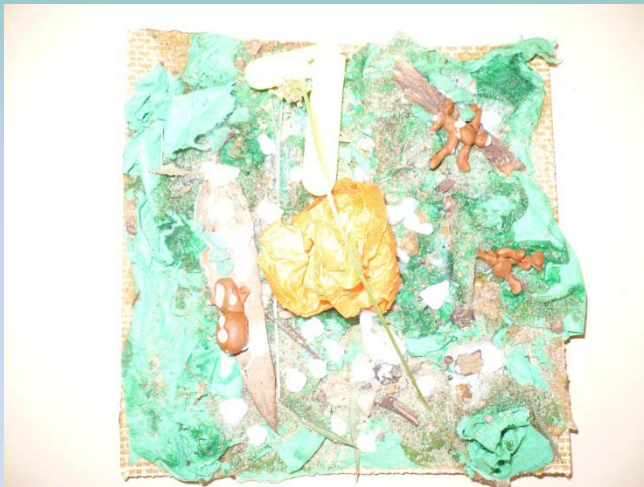

Sutton School

We think we our squares are alike or different because they live in a different country. They have fungus and we don't.

We enjoyed the Square of Life because we got to investigate and discover and find and get to know new animals.

Our Square
