

Sutton school is near the city of Canberra but has lots of farms around as well as some Australian bush behind us. We are hot and dry in Summer and can even get snow in winter.

The school we compared our square to was McBride in Canada. They have living and non living things which make us think that they are in the country. They had trees and bushes which are mostly found in grassland.

# Sutton School

We think we our squares are alike or different because we did not find worms and they did and we found a train bolt.

We enjoyed the Square of Life because I had fun with Jesse.

Our Square

McBride's Square
